PROFESSIONAL SUMMARY

Developer and programmer with 3+ years of hands-on Unity 2D game development experience, including two published titles on Google Play and itch.io. Proficient in C#, Unity Engine, and the Unity 2D toolset. Additional experience in front-end web development using React JS and Tailwind CSS. Demonstrated ability to lead cross-functional teams, manage Scrumban workflows, and deliver projects in creative and technical environments. Fluent in Arabic and English; well-suited for MENA and global remote teams.

TECHNICAL SKILLS

Game Development: Unity Engine, Unity 2D Toolset (Tilemap, 2D Physics, Cinemachine), C#, Android (Google Play), itch.io

Web Development: React JS, Tailwind CSS, HTML, CSS, JavaScript

Programming: C#, C++, JavaScript

Tools & Platforms: Git, GitHub, Linux, Microsoft Office

Methodologies: Scrumban, Agile, Sprint Planning, Kanban

Media Production: Video Editing, Short-Form Content, Social Media Production

WORK EXPERIENCE

Frontend Developer | *Cultural & Arts Association (Sedaal.org)* Freelance

- Developed and maintained web platform features for a digital cultural and artistic initiative using React JS and Tailwind CSS
- Integrated frontend components with backend APIs to deliver user-facing features aligned with platform goals
- Collaborated in a cross-functional team environment alongside designers and content creators
- Delivered iterative feature updates following Agile/Scrumban workflow practices

Video Editor | *ZeroOneTeam — University IT Department* Ongoing

- Produced IT-related reels and short-form video content for the university team's social media channels
- Managed end-to-end video production pipeline: footage capture, editing, post-production, and publishing
- Maintained consistent content output aligned with team branding and communication goals

GAME DEVELOPMENT PROJECTS

ChickyRun — *Unity / C# / Android* Published — Google Play

- Designed, developed, and published an endless runner Android game achieving 1,450+ downloads on Google Play
- Implemented core gameplay mechanics including procedural level generation, scoring system, and player controls
- Managed full game development lifecycle: concept, prototyping, development, testing, and store deployment
- Configured Android build pipeline, APK signing, and Google Play store listing

Endless Weakness — *Unity / C# / PC*

Published — itch.io

- Developed and released a 2D top-down survival game, demonstrating competency in enemy AI, game state management, and player progression
- Applied Unity 2D toolset for sprite management, collision detection, and scene transitions
- Published and maintained game on itch.io, including build packaging and release management

WEB DEVELOPMENT PROJECTS

Roundy — *React JS, Tailwind CSS*

In Progress

- Building frontend UI for a modern messaging web application with responsive design and real-time API integration
- Architecting reusable React components and managing application state for a scalable user experience

Sedaal.org — *React JS, Tailwind CSS*

Freelance — Delivered

- Developed and maintained digital platform features for a cultural content website serving an active online community
- Delivered frontend features on schedule within a collaborative, multi-role team environment

EDUCATION

Bachelor of Science — Computer Information Systems (CIS) | Al-Albayt University Expected 2028

- Relevant coursework: Programming, Data Structures, Software Engineering, Information Systems

KEY COMPETENCIES

- Team Leadership: Led and coordinated a 7-member development team, managing task delegation and delivery
- Cross-functional Collaboration: Worked across IT, cultural, and media production teams simultaneously
- Creative Problem-Solving: Merged technical and creative disciplines across game development, UI/UX, and media
- Communication: Delivered clear messaging across technical teams and youth-facing platforms
- Project Management: Applied Scrumban methodology blending structured sprints with Kanban-style continuous delivery

LANGUAGES

Arabic: Native

English: Professional Working Proficiency
